

# Final Aesthetic Adjustments - Applied Successfully

---

**Date: November 28, 2025**

---

## CHANGES APPLIED:

---

### 1. PAGE 1 (index.html) - Hero Subheadline Restoration

---

**Purpose:** Restore original visual strength to the hero subheadline "What I do every day, and how you can, in your own way."

**HTML Change:**

- **Line 18:** Added class `hero-subheadline` to the hero subheadline
- Changed from: `<p class="subheadline">What I do every day, and how you can, in your own way.</p>`
- Changed to: `<p class="subheadline hero-subheadline">What I do every day, and how you can, in your own way.</p>`

**CSS Addition (styles.css, lines 86-91):**

```
.hero-subheadline {  
  font-size: 22px;  
  font-weight: 400;  
  margin-top: 12px;  
  margin-bottom: 40px;  
}
```

**Result:** Page 1 hero subheadline now has original visual weight (22px, 400) while other subheadlines remain elegant (18px, 300)

---

### 2. ALL 7 PAGES - Main Page Title Adjustments

---

**Purpose:** Create more vertical space below header and reduce size/weight for elegant look

**HTML Changes:**

Added `class="page-title"` to the first main content H1 (below header) in:

- **index.html** (line 17): `<h1 class="page-title">Choose the path of enjoyment!</h1>`
- **page2.html** (line 17): `<h1 class="page-title">Thank you for your information!</h1>`
- **page3.html** (line 17): `<h1 class="page-title">Thank you for your payment!</h1>`
- **page3a.html** (line 17): `<h1 class="page-title">We received your information, thank you very much!</h1>`
- **page4.html** (line 17): `<h1 class="page-title">Welcome to The Sport of Living!</h1>`
- **page5.html** (line 17): `<h1 class="page-title">Welcome to VIP Status!</h1>`
- **page6.html** (line 17): `<h1 class="page-title">Welcome to VIP Status!</h1>`

**CSS Addition (styles.css, lines 64-69):**

```
.page-title {  
  font-size: 28px;  
  font-weight: 500;  
  margin-top: 30px;  
  margin-bottom: 24px;  
}
```

**Result:** All page titles now have:

- Reduced font size (28px vs. default 32px)
  - Lighter weight (500 vs. default 600)
  - Extra vertical space below header (30px margin-top)
  - Consistent spacing across all pages
- 

## TECHNICAL SUMMARY:

---

### Files Modified:

- **HTML:** index.html, page2.html, page3.html, page3a.html, page4.html, page5.html, page6.html (7 files)
- **CSS:** assets/css/styles.css (2 new rules added)

### Testing:

- All 7 pages verified: HTTP 200 ✓
- Server running on port 3000 ✓
- No functional changes (PayPal, forms, routing intact) ✓

### Result:

- Page 1 hero subheadline restored to original visual strength
  - All page titles now have elegant sizing and proper spacing from header
  - Consistent, refined typography across entire website
- 

## PREVIEW STATUS:

---

✓ **Preview URL updated and ready for final visual review**

---

**Note:** These adjustments maintain all existing functionality (PayPal integration, Google Forms, routing) and modify only CSS styling and HTML class attributes.
