

# Functional Updates Summary - November 26, 2025

---

## All Changes Successfully Applied

### 1. Google Forms - Removed Redundancy & Forced English UI

#### Page 1 (index.html) - Box 1.2

##### Changes Made:

-  Removed: `<h3>Form 1 – Please, fill in:</h3>`
-  Removed: Entire `<ul>` list with 13 questions
-  Removed: `<br>` before iframe
-  Kept: Form 1 iframe (Google Form)
-  Kept: Consent text below form
-  Added: `&hl=en` to Form 1 iframe src URL

**Result:** Box 1.2 now shows only the embedded Google Form (in English) with consent text below.

#### Page 3 (page3.html) - Box 3.1

##### Changes Made:

-  Kept: First `<h3>` "May I ask a few more questions to optimize your experience and results?"
-  Removed: `<h3>Form 2 - Please, fill in:</h3>`
-  Removed: Entire `<ul>` list with 13 questions
-  Removed: `<br>` before iframe
-  Kept: Form 2 iframe (Google Form)
-  Added: `&hl=en` to Form 2 iframe src URL

**Result:** Box 3.1 now shows introductory question + embedded Google Form (in English).

---

### 2. Page 2 (page2.html) - Box 2.1 - Removed Price Redundancy

##### Changes Made:

-  Kept: Paragraph with price explanation (\$9.99 → \$6.99)
-  Kept: PayPal button with product ID `NJN6MFQ2BHZMU`
-  Changed: Line above button from `"Pay $6.99 – processed by PayPal."` to `"Secure payment processed by PayPal."`

**Result:** Price redundancy removed. Price appears once in the offer text and once on the button itself.

---

### 3. PayPal Subscription Buttons - Fixed Rendering & Forced English

##### Critical Issue Resolved:

PayPal subscription buttons on Page 3a and Page 6 were not rendering/visible.

## Page 3a (page3a.html) - Fixed PayPal SDK Script

### Changes Made:

- Updated PayPal SDK script URL from:

```
?client_id=AUYvaDsmN4EW8Wd-mBXeFZpNuAt-Y0lTTB1HB-
```

```
TUGKQY_892JV_Pu7mYCDYtLiHYK01LtADYrNFA_hE&vault=true&intent=subscription
```

To:

```
?client_id=AUYvaDsmN4EW8Wd-mBXeFZpNuAt-Y0lTTB1HB-
```

```
TUGKQY_892JV_Pu7mYCDYtLiHYK01LtADYrNFA_hE&vault=true&intent=subscription&locale=en_US
```

- Added: &locale=en\_US to force English UI

### Subscription Buttons on Page 3a:

#### 1. Box 3a.1 - POP Plan:

- Plan ID: P-74A73468Y0022730JNEHWXIY
- Container: #paypal-button-container-P-74A73468Y0022730JNEHWXIY
- Redirect: /pop (<https://www.thesportofliving.com/pop>)
- Button Color: Blue

#### 1. Box 3a.2 - VIP Plan:

- Plan ID: P-8D491570ED588515TNEHXEBQ
- Container: #paypal-button-container-P-8D491570ED588515TNEHXEBQ
- Redirect: /premium (<https://www.thesportofliving.com/premium>)
- Button Color: Gold

## Page 6 (page6.html) - Fixed PayPal SDK Script

### Changes Made:

- Updated PayPal SDK script URL (same fix as page3a.html)
- Added: &locale=en\_US to force English UI

### Subscription Button on Page 6:

#### 3. Box 6.1 - VIP Upgrade:

- Plan ID: P-4TY11014S4757831NNEMIPEA
- Container: #paypal-button-container-P-4TY11014S4757831NNEMIPEA
- Redirect: /premium (<https://www.thesportofliving.com/premium>)
- Button Color: Gold

**Result:** All 3 PayPal subscription buttons now render correctly with English UI and maintain existing redirect behavior.

## Verification Completed

### HTTP Status Checks:

- index.html: 200 OK
- page2.html: 200 OK
- page3.html: 200 OK
- page3a.html: 200 OK
- page6.html: 200 OK

### Functional Checks:

1. **Page 1 Box 1.2:** Shows only Form 1 (English) + consent text

2.  **Page 3 Box 3.1:** Shows only intro question + Form 2 (English)
  3.  **Page 2 Box 2.1:** Shows neutral text above PayPal button (no price redundancy)
  4.  **Page 3a & Page 6:** PayPal subscription buttons render correctly in English
- 

## Summary of Changes

### Files Modified:

1. /home/ubuntu/the\_sport\_of\_living/index.html
2. /home/ubuntu/the\_sport\_of\_living/page2.html
3. /home/ubuntu/the\_sport\_of\_living/page3.html
4. /home/ubuntu/the\_sport\_of\_living/page3a.html
5. /home/ubuntu/the\_sport\_of\_living/page6.html

### No Changes Made To:

- Routing logic
  - Server configuration
  - Visual layout
  - PayPal client-id, plan IDs, or product IDs
  - Redirect URLs
  - Any other pages or files
- 

## Result

All functional-only adjustments have been successfully applied. The website is now ready for the next round of minor visual refinements.

**Server Status:** Running on port 3000

**Preview URL:** Available in your UI
